Pages of
Materials

WHY SHOULD YOU ATTEND?

1

**Build a Robust
AI Governance
Foundation**

Establish a structured AI governance framework aligned with ISO 42001:2023 principles and requirements.

2

**Implement
Compliant AI
Management System**

Learn how to design, implement, and operate an AI Management System (AIMS) that meets standard requirements.

3

**Manage AI Risks
and Opportunities
Effectively**

Identify, assess, and treat AI risks while leveraging opportunities to enhance responsible AI outcomes and business value.

4

**Embed Responsible
AI Practices Across
Your Organization**

Integrate ethics, transparency, accountability, and human oversight into AI lifecycle processes and decision-making.

5

**Drive Operational
Excellence and
Performance**

Monitor, measure, and continually improve your AIMS to achieve consistent performance and stakeholder confidence.

6

**Lead Successful
AIMS Implementation
Projects**

Gain the skills and tools to plan, execute, and sustain ISO 42001 implementation for long-term value and compliance.

WHO SHOULD ATTEND?

Professionals involved in the governance and management of AI programmes.

Consultants supporting AI Management System implementation initiatives.

Expert advisors and specialists seeking to master the practical implementation of AI Management Systems (AIMS) in accordance with ISO/IEC 42001:2023.

Professionals ensuring AI projects align with organizational policies, controls, and compliance requirements.

Members of AI Management System (AIMS) implementation teams responsible for implementing and operating AI systems.

Executives and managers responsible for overseeing AI implementation and ensuring conformance with ISO/IEC 42001.

Risk, Compliance, Governance, and Information Security professionals involved in establishing and maintaining AI governance frameworks.

COURSE AGENDA

01

Introduction to Artificial Intelligence Management Systems (AIMS)

Overview of AI governance principles, concepts, and management approaches.

02

Overview of ISO/IEC 42001:2023 Requirements

Understanding the intent, structure, and framework of the standard.

03

Management System Principles and Annex SL Structure

Common management system concepts applicable across ISO standards.

04

Context of the Organization and Leadership

Understanding organizational context, stakeholder expectations, leadership responsibilities, and governance.

05

Planning and Risk-Based Thinking

Approaches for addressing risks, opportunities, objectives, and implementation planning.

06

Support Processes and Resource Management

Awareness, competence, communication, documented information, and resource considerations.

07

Operational Planning and Control

Implementation approaches for managing AI-related processes and operational activities.

08

Performance Evaluation and Monitoring

Monitoring, measurement, review activities, and evaluation of management system effectiveness.

09

Continual Improvement and Corrective Actions

Improvement methodologies and approaches for enhancing AIMS performance.

10

Implementation Guidance and Practical Considerations

Practical implementation concepts, examples, and discussion of implementation challenges.

11

Practical Exercises, Case Studies and Workshop Activities

Interactive learning sessions for knowledge application.

12

Competency Evaluation and Course Review

Knowledge assessment, discussion sessions, and course wrap-up.

Learning Objectives • Certification

LEARNING OBJECTIVES

By the end of this course, participants will be able to:

- 1** Understand the fundamental concepts, principles, and requirements of an AI Management System (AIMS) based on ISO/IEC 42001.
- 2** Interpret the requirements of ISO/IEC 42001:2023 from the perspective of implementing and managing an AI Management System (AIMS).
- 3** Initiate, plan, and support the implementation of an AI Management System (AIMS) based on ISO/IEC 42001 using implementation approaches and best practices.
- 4** Support the effective operation, maintenance, and continual improvement of an AI Management System (AIMS) in accordance with ISO/IEC 42001.
- 5** Develop the knowledge and skills required to establish, implement, and maintain an AI Management System (AIMS) aligned with ISO/IEC 42001 requirements.
- 6** Risk, Compliance, Governance, and Information Security professionals involved in establishing and maintaining AI governance frameworks.

CERTIFICATION & GENERAL INFORMATION

Upon successfully passing the examination, participants will receive the:

FQA International Certification (Soft Copy on email)

- ✦ 32 CPD (Continuing Professional Development) credits included.
- ✦ Candidates who have completed the training course but failed the exam are eligible to retake the exam once for free within 1 month from the initial date of the exam.
- ✦ Certification and examination fees are included in the price of the training course.
- ✦ Course material will be provided.
- ✦ Live online instructor-led training with participant interaction and Q&A support.

ENROL TODAY

- ❖ Trusted by Professionals Across Industries

- ❖ Professional AI Trainers who talk in the GRC Language.

LEARNING ASSURANCE

100% Confidence. Zero Risk.

- Evaluate the programme during the first 4 hours.
- If it does not meet your expectations, you may withdraw with **no commercial obligation**.

CLIENT TESTIMONIALS

“ Here’s what our participants say about our training experience.

“

The course was well-structured and easy to follow. The trainer explained concepts clearly with practical examples that were very helpful.

“

Great learning experience with a perfect balance of theory and practical sessions. The case studies and exercises added a lot of value.

“

The content was comprehensive and relevant. I gained valuable insights that I can immediately apply in my work.

“

The trainer was knowledgeable and engaging. Sessions were interactive and all queries were answered very well.

“

Excellent course delivery and well-organized materials. It has enhanced my understanding and confidence significantly.

“

A must-attend program for professionals. The learning approach was practical, insightful, and very impactful.
